

TELEWASH®

TeleWash® Flow-thru Extension Poles

Model #8680 - 3'-5'

TeleWash extends your reach for difficult exterior cleaning jobs. It quickly cleans many outdoor surfaces including wood, siding, brick, stone, tile and concrete. TeleWash is also excellent for cleaning windows, boats and automobiles. TeleWash attaches to a standard garden hose and has an on/off valve to adjust the water flow and help conserve water. It has an ergonomic rubber non-slip grip and is made of anodized aluminum which won't rust. Its handle easily adjusts from 3 to 5 feet in length. Telewash fits all of our chemical resistant, flow-thru cleaning brushes.

PACK QTY: 6

10" brushes are sold separately and available in regular and bi-level styles with several fiber choices.

Attaches to a standard garden hose.
