Flow-thru angle adaptor - Model #0425

PACK QUANTITY: 12

## Regular Flow-Thru Cleaning Brushes

- 10" non-restrictive, flow-thru brushes fit all Mr. LongArm extension poles, utility poles and flow-thru extension poles.
- Chemical resistant materials work well with most common cleaning agents.
- Plastic blocks are durable and lightweight.
- Full rubber bumper prevents scratching and includes a hang hole for use with pegboard or to hang for drying.

## Four Brush Fiber Styles

Model #0404 (Green) — Very soft fibers for clear or gel coat finishes on autos, trucks, vans and other fine finishes.

Model #0405 (Blue) — Soft fibers for windows, awnings, siding, vinyl, fiberglass and most applications.

Model #0406 (Yellow Long) — Stiff fibers for decks, boat hulls, concrete, and other masonry.

Model #0407 (Yellow Short) — Very stiff fibers for deck cleaning and surface preparation.

## Flow-Thru Angle Adaptor

- Fits all Mr. LongArm extension poles, utility poles, flow-thru extension poles and brushes.
- Allows user to change the angle of a brush or redirect the flow of water up to 270°.
