## Bi-Level Flow-Thru Cleaning Brushes

- Bi-level brushes offer dual cleaning surfaces for hard-to-reach areas.
- 10" non-restrictive, bi-level flow-thru brushes fit all Mr. LongArm extension poles, utility poles and flow-thru extension poles.
- Chemical resistant materials work well with most common cleaning agents.
- Lightweight brushes float in water.
- Includes a removable brush hanger for use with pegboard or to hang for drying.

## Three Brush Fiber Styles

Model #0480 (Green) — Very soft fibers for clear or gel coat finishes on autos, trucks, van and other fine finishes.

Model #0483 (Blue) — Soft fibers for windows, awnings, siding, vinyl, fiberglass and most applications.

Model #0488 (Yellow Long) — Stiff fibers for decks, boat hulls, concrete, and other masonry.

## Brush Hangers

- Fits standard acme threaded brushes and tools allowing items to be hung on peghooks. Push into threads to install, unscrew to remove.
