EXTENSION POLE CENTER

The extension pole center #0079N is intended to offer a full line of Contractor Grade and D.I.Y. extension poles. Dimensions are: 31" W x 10" D x 74" H. This rack provides 14 facings plus a short pole rack with 2 facings. Two extended width facings on the left side accommodate 2-3 times more poles per facing depending upon the model. Easy to assemble.

REVOLVING DISPLAY

Our revolving or "spin" display #0060 is a sturdy, freestanding display with a small footprint that holds a considerable amount of product. It easily accommodates both our extension poles and attachments and spins on it's base.

COMPACT EXTENSION POLE CENTER

The modular design of our compact extension pole center #0084-1623 lets you assemble it as either a 16" or 23" wide display. The display can be assembled with or without the use of pegboard. Comes complete with signage and hardware to anchor it to other store fixtures.
