

RACK-N-PAINT™ MULTI-PURPOSE DOOR RACK

All weights and specifications are approximate.

RACK 'EM UP.

The Rack-n-Paint™ Multi-Purpose Door Rack is our labor efficient work center. The Rack-n-Paint makes it easy for one person to paint and install hardware on up to 16 doors. Holds doors in less than a 10' x 10' area and keeps them organized and out of harms way!

★★★★★ CUSTOMER REVIEW

"I've painted doors using every method out there. I doubt there is anything I haven't tried over the years. Some methods were better and more efficient than others but they all always required a lot of free space for painting and drying. Sometimes space I didn't have...I can set up an entire house full of doors in about 30 minutes by myself with this door rack. Have them sprayed in another 30 minutes and then walk away. The next day I install all the door hardware while doors are still on the rack and then one by one start hanging them. Great gadget and worth the money.

Shipping Wt: 51 lbs.
UPC #: 039932015257

- Labor efficient work center
- The patent pending Rack-N-Paint™ holds up to 16 doors in as little as a 10' x 10' room
- This rack makes it quick and easy for one man to do prep work, spray, and install hardware on 2 to 16 doors in half the time of traditional methods
- Keeps doors organized and safe from handling damage, saving both time and money
- Imported

"Now you can set up your own portable highly efficient work center for painting doors. We have found that this system reduces door prep and painting time by over 50% and requires 50% - 75% less work space."

— Mike Whitney, Professional Painter
