

TOOL STORAGE RACK

Assembly Instructions - Model #0079

Tool Needed: Rubber Mallet

Parts: 1 - 12" (30.48 cm) x 12" (30.48 cm) Plastic Top **a**

4 - 17" (43.18 cm) Aluminum Tubes **b**

1 - 17" (43.18 cm) x 17" (43.18 cm) Plastic Base **c**

ATTENTION: Do not attempt to move the tool storage rack fully loaded with tools. Place it in your preferred location and then add the tools. Be sure to place it in a location with plenty of overhead clearance to allow your longest tool to lift up and out of the rack. This rack fits 24 tools with handles up to 1.375" in diameter. It will not fit tools with a D-grip design handle.

D-grip tool handles will not fit into the 1.375" holes.
