FULL LINE CATALOG

Effective May 1, 2023

Mr. LongArm extension
poles circa 1992.

GOT A NEED FOR SPEED?

We designed the Smart-Lok Quick-on/Quick-off System for those who value their time. Push-button feature changes tools and length adjustments to keep you sailing full speed ahead so you can move onto the next job.

★★★★★ CUSTOMER REVIEW

"Got tired of switching between various attachments, so now I just pop off what I'm using and attach the next one."

— Thomas E.

POSITIVELY POSITIVE.

Super Tab-Lok's push-button locking mechanism provides a positive lock every time. Applications that require applied pressure such as sanding and scraping are its forte.

★★★★★ CUSTOMER REVIEW

"This is my second Mr. Long Arm. The first one is still going strong . . . I'd rate this extension pole a top pick. Always easy to use, great balance, very strong. Can't get much better than this."

— A.C.

JACK OF ALL TRADES.

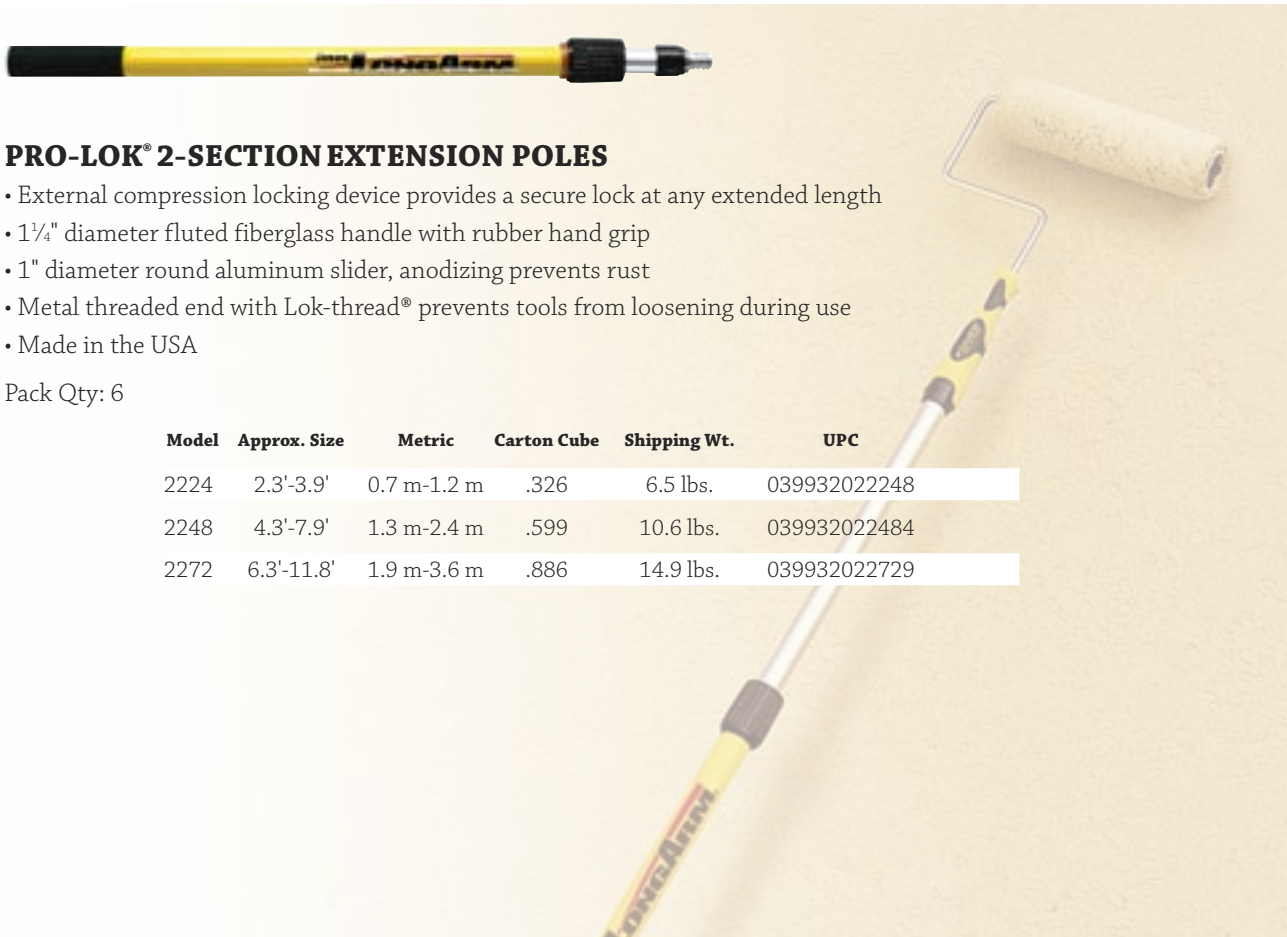

Heavy duty Pro-Lok is your go-to extension pole for jobs of all kinds. Light enough to hold overhead without straining and tiring your shoulders, yet strong enough not to flex and bow out of shape during use.

★★★★★ CUSTOMER REVIEW

"I'd bought a cheap light weight aluminum version of this product from another company that was made in China. The cheap product broke on the first use. It pays to invest in something that is going to last. I'm expecting the Mr. Long Arm Extension Pole to last for a long, long time . . . the rest of my life, hopefully!"

— DJ

PRO-LOK® 2-SECTION EXTENSION POLES

SUPER TWIST-LOK® EXTENSION POLES

All weights and specifications are approximate.

AUDIBLE LOCK.

Super Twist-Lok's bi-directional lock lets you know with a click that its locked. The all fiberglass construction of this pole makes it very rigid and a favorite among professionals.

★★★★★ CUSTOMER REVIEW

"I have 23 years experience painting and am all about efficiency and the perfect tool . . . With the internal locking mechanism it is a simple twist to unlock, adjust and relock. There is no preset drilled hole for what length you have to set it. So you can adjust it to be as long as possible in tight spaces."

— k3nt

SUPER TWIST-LOK® EXTENSION POLES

QUICK CHANGE ARTIST.

Mr. LongArm letter changers let you change signs fast! When combined with the Pro-Pole Fiberglass you get the perfect sign changing duo. Pro-Pole Fiberglass is one of our most durable and rigid extension poles. Constructed of smooth fiberglass inner and outer tubes, this heavy duty pole is perfect for challenging jobs that require greater reach and rigidity.

★★★★★ CUSTOMER REVIEW

"Saved me soo much time when changing our marquee out front!!! Love it! Before we had to climb a ladder to change and now it only takes 5 mins vs 30-45 before. Such a great product."

— ACB

VERSATILITY.

Medium duty Pro-Pole is one of our most versatile extension poles. Pro-pole can handle nearly any job you can think of and is durable yet lightweight with a comfortable fluted grip.

★★★★★ CUSTOMER REVIEW

"It is a solid pole that extends, not super heavy but pretty strong, has a good reach on it too. I used it for painting but also used it to knock a broken branch out of a pretty tall tree. Super useful in those hard to reach situations!"

— R. Carter

MULTI-USE.

Twist-Lok is our lightest extension pole, perfect for around-the-home tasks like painting, dusting and window cleaning. Lets you reach hard-to-access areas but is comfortable to handle.

★★★★★ CUSTOMER REVIEW

"Major help when painting ceilings or any high location. Very light weight and simple to use. It's one of those things I wish I had come up with. Twist lock holds tight so once you have it set to the length you desire it won't slip. It's not so tight that it is difficult to adjust mid job if needed. I would definitely recommend this to a friend, neighbor or family member."

— Navyvette

TWIST-LOK® EXTENSION POLES

WORK SMARTER NOT HARDER.

The Smart Painter System, with its 11-point pivoting spatter shield, makes quick clean work out of any painting job. The Twist-lok® extension pole allows you to reach up to paint walls and ceilings or down to paint walls or floors, without bending!

★★★★★ CUSTOMER REVIEW

"This product is great - keeps the paint where it belongs - on the walls/ceilings! No splatter, no drips, makes for a very professional-looking job! Only takes seconds to extend, or re-angle. Can't paint without it!"

— Billy C.

RACK 'EM UP.

The Rack-n-Paint™ Multi-Purpose Door Rack is our labor efficient work center. The Rack-n-Paint makes it easy for one person to paint and install hardware on up to 16 doors. Holds doors in less than a 10' x 10' area and keeps them organized and out of harms way!

★★★★★ CUSTOMER REVIEW

"I've painted doors using every method out there. I doubt there is anything I haven't tried over the years. Some methods were better and more efficient than others but they all always required a lot of free space for painting and drying. Sometimes space I didn't have...I can set up an entire house full of doors in about 30 minutes by myself with this door rack. Have them sprayed in another 30 minutes and then walk away. The next day I install all the door hardware while doors are still on the rack and then one by one start hanging them. Great gadget and worth the money.

— BobbyCA

RACK-N-PAINT™ MULTI-PURPOSE DOOR RACK

All weights and specifications are approximate.

Model 1525

RACK-N-PAINT™ MULTI-PURPOSE DOOR RACK

Pack Qty: 1
Carton: 2.0 cu. ft.
Shipping Wt: 51 lbs.
UPC #: 039932015257

- Labor efficient work center
- The patent pending Rack-N-Paint™ holds up to 16 doors in as little as a 10' x 10' room
- This rack makes it quick and easy for one man to do prep work, spray, and install hardware on 2 to 16 doors in half the time of traditional methods
- Keeps doors organized and safe from handling damage, saving both time and money
- Designed in the USA / Made in China

"Now you can set up your own portable highly efficient work center for painting doors. We have found that this system reduces door prep and painting time by over 50% and requires 50% - 75% less work space."

— Mike Whitney, Professional Painter

SET-UP IS QUICK AND EASY

Multi-Purpose Door Rack™ is a trademark of Whitney Innovations™

LET IT SOAR.

Getting your water off the ground and up on the big jobs couldn't be any easier! Hydra-Soar® is the perfect tool to easily clean all your large exterior jobs. Choose from a variety of brushes for nearly any finish and check out the angle adaptor to adjust the water flow for gutter cleaning and more.

★★★★★ CUSTOMER REVIEW

"Excellent family of products! I'm very happy with the quality and construction of all the products I purchased: they really help make tedious tasks quicker and easier to accomplish, and I'm all for that! The green brush is so soft I can safely use it on my cars' clear-coat finish and my motorhomes' fiber-glass gel-coat."

— Careful Consumer

CLEAN & PREP.

The Tele-Wash quickly cleans many outdoor surfaces including wood, composite, brick, stone, tile and concrete. Telewash is the perfect wood deck cleaning tool. It won't damage wood the way pressure washers can and its stiff bristles gently remove stubborn dirt while the water washes it away. Use Telewash with a deck cleaner to help bring back woods' natural beauty and prep it for staining.

★★★★★ CUSTOMER REVIEW

"Used this to clean my composite deck...This worked perfectly. The bristles are quite firm and coarse and I was hesitant to use on our deck, but it worked out well because that meant I didn't need to use as much pressure at all. Good buy and well worth it. Hope to last several seasons."

— ladybach

WOODMATES® TELE-WASH®

WOOD STAINING MADE SIMPLE.

Our 12 in Premium Stain Applicator is our top of the line staining solution. Its extra wide pad stains two boards at once. The built in gap tool helps you reach hard to access spaces between boards. Hook and loop pad attachment allows for quick and easy cleaning and reattachment of the tear-resistant foam pads.

★★★★★ CUSTOMER REVIEW

"This is a great product! Applies stain to deckboards and in between very well. Pad is designed to withstand catching nails and splinters. Holds just the right amount of stain. This product cuts time to finish your deck without a doubt. Pad easily removes for cleaning. I will NEVER use a roller again to finish a deck."

— Battman

WOODMATES® STAIN APPLICATORS

All weights and specifications are approximate.

Model 0350

12" PREMIUM STAIN APPLICATOR

Pack Qty: 4
Carton: 0.800 cu. ft.

- Polypropylene core fits any standard 9" roller frame, resists water and solvents
- For use with water or oil-based deck sealer or stain
- Made in the UK from globally sourced materials

IT'S ALL IN THE DETAILS.

The contour stain applicator flexes in and out to easily stain balusters, rails, spindles and other contoured surfaces. Soft touch grip areas for secure handling. This is the fastest and easiest way to stain or seal those hard to reach time-consuming areas. Replaceable pad with barrier prevents stain from leaking through pad and onto your hands.

★★★★★ CUSTOMER REVIEW

"Spindles, balusters or railings, whatever you want to call them, staining deck spindles is an absolutely soul crushing job. I've stained our porch a couple of times so I thought I'd share how to stain deck spindles the easy way. The Woodmates tool flexed around contours and had a replaceable hook and loop style pad for easy cleanup. I was able to zip up and down really quick and the pads helped the stain penetrate into the wood... The Mr. LongArm Woodmates contour stain applicator tool is highly recommended!"

— Josh

SMOOTH SAILING.

The Woodmates® 7" deck stain applicator kit includes the tools you need for a beautiful deck – in one bag! The 7" deck stain applicator sails over even the roughest deck boards and the contour stain applicator flexes in and out to easily stain balusters, rails, spindles and other contoured surfaces. Tear-resistant foam pads hold and release more stain than other pads and prevent dripping and pooling for a smooth finish.

★★★★★ CUSTOMER REVIEWS

"I had used a roller to initially stain my porch. The roller left 'roller over marks'. So, I purchased this pad to see if it would be better. This time, no marks, just smooth staining." — SC

"Spindles, balusters or railings, whatever you want to call them, staining deck spindles is an absolutely soul crushing job...The Woodmates tool flexed around contours and had a replaceable hook and loop style pad for easy cleanup. I was able to zip up and down really quick and the pads helped the stain penetrate into the wood." — Josh

LIGHT THE WAY.

Smart Bulb Changers and Non-Conductive Extension Poles allow both D-I-Y and Professional users to change hard-to-reach light bulbs safely from the ground. And they contain no metal parts making them the safest bulb changing solution on the market.

★★★★★ CUSTOMER REVIEW

"For years I used one of the big box suction cups with a pull string. It worked okay but the suction cup had a tendency to warp over time and need to be replaced. This changer is made of a thicker rubber and I expect it to last longer. It also has a very smart design where no string is required, simply pulling down released the suction. Before changing a bulb high up, you should practice to make sure you know how much pressure is required and get a feel for when suction is obtained. For my two 20 foot high bulbs, it worked great."

— J. Anderson

NON-CONDUCTIVE EXTENSION POLES

- External compression locking device provides a secure lock at any extended length
- 1½" diameter smooth fiberglass handle and 7/8" diameter smooth fiberglass slider make this pole extremely rigid
- Rubber hand grip
- Won't conduct electricity (120/240 voltage) if not contaminated with moisture, water or other conductive liquids.
- Nylon threaded end fits all Mr. LongArm bulb changers and accepts lock clip
- Made in the USA

NO LADDER NEEDED.

The heavy duty bulb changer attaches to an extension pole and allows the user to remove and replace exposed bulbs of many sizes and shapes quickly and easily, while standing safely on the ground!

★★★★★ CUSTOMER REVIEW

"Very well made inexpensive efficient way to change bulbs without a ladder needed. Affordable way for me to get my light bulbs out of the fixtures in 15' ceiling without dragging a ladder up the stairs from the garage. Works perfect ."

— Tom C.

BULB CHANGING PRODUCTS

HIGH QUALITY AIR QUALITY.

No more dust in the wind, dusting high and hard-to-reach areas is so easy with a Mr. LongArm extension pole and duster. Plus you keep your feet on the ground so its a much safer way of dusting.

★★★★★ CUSTOMER REVIEW

"For once great grandmother was right! Who knew all those Downton Abbey maids were wielding the best housekeeping tool for the 20th century and beyond? This does a great job and is so much easier and faster! I hated dusting, because I had to pick up every item to dust. A feather duster glides over everything and really does the job in less than half the time. Then I just take it outdoors and shake it hard to get rid of the collected dust. No more refills. The extension pole is a necessity for high spots like cornice mouldings, windows, baseboards, etc, but take the handle off for regular dusting."

— SweetDreams

- Cleans up easily with mild soap and water
- Universal threaded handle fits any standard extension pole or utility handle
- Made in Indonesia

CURVE APPEAL.

The Pro-Curve window cleaning system incorporates a curved pole and rotating tool handle that offers distinct advantages over the traditional method of cleaning windows. With the ProCurve System you can easily wash windows of all sizes and shapes including solariums and atriums. Allows user to reach over or around obstructions, such as, flowers, shrubs, statuary, etc.

★★★★★ CUSTOMER REVIEW

"You wouldn't think window cleaning equipment would make such a difference, but this set, along with the ProCurve Extension Pole, has made an onerous job a non-event. An excellent product with good service from the vendor."

— Brad T.

PRO-CURVE® WINDOW CLEANING TOOLS

All weights and specifications are approximate.

PRO-CURVE® EXTENSION POLES

- Fluted fiberglass handle with rubber hand grip for a comfortable non-slip grip in any climate
- Curved aluminum slider allows the user more control of the squeegee or washer and anodizing prevents rust
- Tapered adaptor fits ProCurve squeegees and washers with an inner groove that securely locks tools in place while allowing them to rotate freely for faster cleaning
- External compression locking device provides a secure lock at any extended length
- Two and three section poles
- Made in the USA

CLEAN WINDOWS LIKE A PRO.

The ProDesign handle swivels to clean curves and angles easier than ordinary squeegee handles. Its spring release design fits both squeegee channel and wash bar.

★★★★★ CUSTOMER REVIEW

"Save yourself the time and effort of getting out the ladder to scrub your outdoor windows and purchase this item along with the Mr. Long arm pole. It's also relieving to not use a half a roll of paper towels with cleaning the windows one time. There's a guy in my neighborhood that cleans the windows on several houses and I've actually been told that my windows look cleaner than the ones he does and that's his full-time job. Prior to purchasing this item, I've never cleaned windows with a squeegee and this item makes it very easy."

— JT9

WINDOW & SOLAR PANEL CLEANING KITS

All weights and specifications are approximate.

POWER UP.

Maintaining a clean surface on your solar panels is essential for optimum energy output. The ProCurve Solar system is designed to clean solar panels faster, safer, easier and is better for the environment. Using this system leaves no carbon footprint and conserves water, unlike complicated, expensive, non-eco friendly equipment.

★★★★★ CUSTOMER REVIEW

"Solar Panel Cleaning — Mr. Longarm Gets the Job Done. I have two solar arrays that are too large to reach for cleaning without extension. This kit has it all; extensions, cleaning heads, squeegees, brushes, etc. The canvas bag the kit comes in is well made and holds all the tools/poles nicely for transport and storage."

— Doug M.
